

To our Members

The spread of the Coronavirus (COVID-19) has our undivided attention. We are doing everything possible to ensure the safety of our employees, members and associates. We are monitoring and following all guidance from the Centers for Disease Control (CDC), including taking the steps necessary to reduce the threat of exposure to employees and members.

We have a cleaning procedure in place and can conduct additional cleanings if needed. Our team members are also reminded to ensure their hands are regularly washed or sanitized.

STEPS YOU CAN TAKE

We encourage you to conduct business quickly and easily by using our remote deposit, online home banking access to transfer funds for loan payments and BillPay. If you need access to cash, you have surcharge-free access to ATMs in the Culliance network. Please visit our website-www.famufcu.com for a list of ATM locations.

Despite the threat posed by COVID-19, your FAMU FCU team remains committed to serving you and your families. If there is a mandatory order to close for any reason, please visit our website for updated information on our hours of operation.

Sincerely,

Sheilah Montgomery, President/CEO
